

The Gunner's Mate keened
his drear fate in Love & War.
She eased a bit

by screwing $\frac{1}{2}$ their Wis-
consin town; he,

meantimes, Swiss-
Cheesed by Jap Zeros.

So, mostly holes: Patriot!

Soon, raffish Senator delivers her

Mate's beribboned, boxed, posthumous
medal for "Meritorious Action!" (Brought

along his Whore, who really
REALLY adored laughing!)

At any rate, though you'll see them
all from time to time & place to
place, they're unfortunately dead!

Presently, ZOMBIES! So look around
& mute the sound before you try

to sleep. Lock the widows: they might
attempt getting in. Be alert! Look sharp!

In fact, of course, YOU may be dead,
so we should NOT, probably, be friends

@ this altogether weird-O point of time!

ps That Woman? Who can't ever
EVER stop laughing?

Hey! It only sounds like com-plete-ly Cuh-ray-ray-ray-ZY!
